

With more than 20 years' experience in the printing and publishing industry, IBL continues to evolve, advance and innovate.

Along with printing and publishing projects, we can now offer clients the very latest in packaging technology using our compact cardboard products.

IBL is fully committed to sustainable development through the use of certified environmentally friendly products and processes.

expertise

## OUR COMPANY ETHOS

### > Professionalism

Our company's professionalism is demonstrated by our rigorously high standards.

Throughout each stage of your print project, we ensure that you are advised by our fully trained, qualified employees.

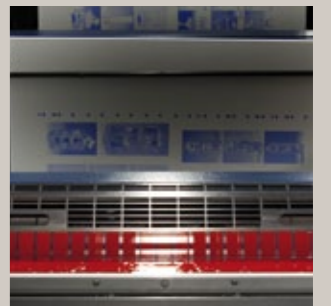

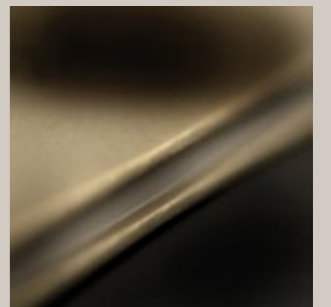

### > Technology & Accountability

Recently re-equipped with the very latest printing machines, our employees in the print room work as a highly efficient team, collaborating on each project with great team spirit.

We strongly believe in respect for the environment and guarantee to offer our clients the most environmentally friendly printing services possible.

We endeavour to use the most up-to-date printing processes and technologies for each project, ensuring a high-performance solution every time.

IBL guarantees a fully accountable printing process. Each project is monitored using an ERP system, which directly matches the cost of the project to the function of the offset printing machine being used. Our ERP system ensures that each project's billing, production and traceability are all monitored efficiently.

# printing works

## A BRAND, AN IMPRINT, A VISION

### > Responsiveness

IBL offers a unique, personalised service for each print project undertaken, from its conception to the finished product.

At each stage of the process, we aim to work in partnership with you, offering advice and asking for feedback as your print project is set up, printed, finished and delivered. Your needs are our priority.

### > Pre-press

Pre-press services form part of every print project undertaken at IBL. We employ three people to guide and advise clients about their project's concept, design and layout before anything is actually printed.

### > Our machines

Our printing machines incorporate the most up-to-date, high-performance print technology available:

- 5-colour printing + Heidelberg XL75 acrylic varnish (using the latest eco-friendly techniques)
- 6-colour offset printing (with envelope feeder)
- 2-colour printing (with a group numbering system)
- Kama ProCut 74 Automatic die cutter with hot foil stamping module and embossing.

# our services

## SPECIALISTS IN BESPOKE PRINTING

### > Our products...

Catalogues, brochures, reports, books, leaflets, mailshots, flyers, posters, notebooks/notepads, envelopes, maps, calendars, fold-out boxes, folders, cheque books/vouchers/coupons, press packs...

### > Our printing processes

Whatever your project, we take pride in finding the most efficient and affordable solution to meet your print requirements, no matter how simple or complex they may be.

Our main expertise lies in offset printing, but should your project require design input, we are used to working in partnership with advertising agencies and graphic designers.

commitment

## OUR COMMITMENT TO SUSTAINABLE DEVELOPMENT

IBL has been offering certified environmentally friendly printing services for several years:

- Imprim'Vert: certified since 2006
- Print Environnement: certified since 2008

In recognition of our company's respect and care for the environment, IBL has also been awarded two further certificates: PEFC and FSC®.

Compliance with the PEFC and FSC schemes verifies that paper used at IBL comes from sustainably managed forests.

The FSC (Forest Stewardship Council) and the PEFC (Programme for the Endorsement of Forest Certification) schemes have been independently certified as environmentally friendly.

By using FSC or PEFC-certified paper, our clients are making an environmentally responsible choice.

Please contact us for further information and advice about our environmentally friendly printing services.
